

# ROSHNI PRAJAPATI

FULL STACK DEVELOPER

## OBJECTIVE

I am seeking an opportunity as a Full Stack Developer where I can apply my knowledge of both front-end and back-end technologies to build responsive and efficient web applications and user-friendly web applications, and continue to grow professionally by learning new technologies and improving my technical skills.

## EXPERIENCE

### NETWORK TROUBLESHOOTER

May 2017 – Feb, 2018

**Network Monitoring and Troubleshooting:** Actively monitored network performance and proactively resolved latency, bandwidth, and connectivity issues, ensuring minimal disruption to business operations.

**Problem Resolution:** Utilized diagnostic tools (e.g., Wireshark, Ping, Traceroute) to identify and resolve network issues related to hardware, software, and configuration problems.

## PROJECTS

### 1. Frontend Web Project: E-commerce Website

*Technologies Used:* HTML, CSS, Bootstrap

- Designed and developed an e-commerce platform focusing on a Clean and User-friendly design. optimized layout for better performance and compatibility across device.

### 2. Backend Web Project: Admin-panel

*Technologies Used:* HTML,

CSS, Bootstrap, MongoDB, Node.js, express.js, passport.js,

- Created Admin Panel to manage Products, Users, and orders. implemented CRUD operation & authentication for secure access.

### 3. MERN stack project: blog website

*Technologies Used:*

HTML, CSS, Bootstrap, MongoDB, Node.js, express.js, JWT

- Blog Management System with JWT Authentication and Role-based Authorization provides a secure platform for both admins and users. regular user can Create, Update, Delete their own blog post.
